# About us

The Crows Nest Centre is a non-profit organisation that exists to provide inclusive, responsive and accessible services that contribute to and sustain community wellbeing, reduce social isolation, and enhance the quality of life for people in our community.

Support services, such as Meals on Wheels, Linen, Shopping and Transport Services, specifically target frail, aged people and those with disabilities who require support to maintain their independence. Other services include social activities, a computer club, services for new migrants, and community support.

The Crows Nest Centre is funded by the Department of Ageing, Disability and Home Care, the Department of Immigration and Citizenship, North Sydney Council, community donations, and our room hire. Every cent spent on room hire goes back into the community by helping to fund our vital support services.
